CAREER OBJECTIVE

Final-year Computer Engineering student with skills in HTML, CSS, JavaScript, and responsive UI design. Eager to build user-centric web interfaces and contribute to real-world projects. Committed to continuous learning and professional growth in the tech industry.

EDUCATION

➤ KJ College Of Engineering & Management Research | Pune

BE Computer Engineering | Nov 2022 - Jun 2026

➤ Smt. Chandibai Himathmal Mansukhani College | Ulhasnagar

Higher Secondary Education | 2022

➤ LAES English High School | Neral

Secondary Education | 2020

TECHNICAL SKILLS

➤ Programming Language : Python

➤ Web Development : HTML, CSS, JavaScript

➤ Tools : VS Code, Figma

PROJECTS

➤ HireLink - A web Based Campus Recruitment Platform

Developed a centralized campus recruitment platform using React.js, Django, and MySQL.

Implemented modules for student registration, job posting, recruitment drive management, and resume generation.

Focused on improving placement efficiency, secure data management, and transparent communication between students, recruiters, and TPOs.

➤ Personalized Motivational Alarm System | Web Development Project

Developed a browser-based smart alarm system using HTML, CSS, and JavaScript.

Implemented features like alarm scheduling, personalized motivational message playback, and LocalStorage-based data persistence.

Focused on improving user wake-up productivity through motivational audio interaction and an interactive user-friendly interface.

➤ Smart Dustbin | IOT - Based Automation Project

Developed an automatic touchless dustbin using Arduino and ultrasonic sensor.

Implemented servo motor control for smart lid mechanism.

Focused on hygiene improvement and smart waste management.

➤ Matheran Tourism Website | HTML CSS JS

Architected a fully responsive multi-page tourism platform with optimized assets and fluid layouts. Implemented Media Queries for device-specific styling and handled deployment via Netlify to ensure 100% live availability.

CERTIFICATE

➤ Responsive Web Design | freeCodeCamp | April 2026

Completed 300+ hours of intensive coursework mastering expert-level CSS architecture, including Flexbox and Grid, to build and deploy modern, mobile-first responsive web projects.

➤ Figma UI/UX Design Essentials | Udemy | April 2026

Mastered end-to-end UI/UX workflows in Figma, including wireframing, interactive prototyping, and high-fidelity mockups using user-centric design principles.
